That is correct. The Sheriffs Office has a very good and long standing relationship with CSU and stand ready to work with them and assist them at any time, but will not be party to a policy that is in conflict with state law, the Constitution and common sense. What that means from a practical point of view is that I will not take any persons charged with such offense into my jail, nor will I revoke or suspend a CCW permit for violating CSU's policy.

Jim

To Larimer County Sheriff Jim Alderden:

I would like to confirm Sheriff Jim Alderden's opinion of the CSU Board of Governors' decision to ban weapons on CSU's campus in Fort Collins. My current understanding is since state law does not bar firearms on school campuses, the Sheriff's office will not assist in enforcing the Board's decision.

I can be reached at the temporary email address [REDACTED]

Sincerely,

Erik Soderstrom
